

Square^{wood}

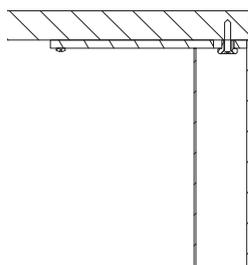

The Square table combines design and elegance with functionality. The distinct line pattern adds the finishing touch.

Support

- 4 square legs in solid beech 70 x 70 mm.
- Each leg is fixed to the tabletop by means of a metal support with a central hidden fastening.
- The underside of the tabletop has no side rails, so that a free height of 72 cm is always guaranteed.
- Wheelchair-accessible.
- The wooden parts are finished with a coat of varnish.
- The legs are equipped with synthetic glides.

Tabletop

- Made of stratified lightweight chipboard of 38 mm. The lightweight panel weighs 30% less than standard chipboard panels and has a density of 450 kg/m³.
- Finished with a HPL layer.
- The table edges are finished in accordance with the choice of the tabletop (with a PVC layer or a veneered layer protected by a coat of varnish).

Central hidden fastening.

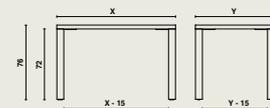

Colours

We would like to refer to our extensive colour gamut.
