

Ilana

Day hospital cabinet

23300 The design of the Ilana Day hospital particularly focuses on mobility and versatility. The cabinet is made of highly durable materials, such as solid laminate and aluminium, and offers practical solutions for organising items and storing clothes and accessories.

One-sided version (storage cabinet, open compartment)

- The sides and back are made of 8 mm solid laminate panels that are assembled between 4 aluminium corner profiles.
- The door is made of 8 mm solid laminate.
- Equipped with high-quality self-closing hinges, opening up to 175°.
- Metal design handle.
- The cabinet is equipped inside with a removable synthetic drawer tray and a shelf.
- The inside of the cabinet is also equipped with a metal hanging rod with 3 metal hooks, providing a practical solution for hanging clothes and accessories.
- Aluminium and steel parts are protected by an epoxy coating or an anodised layer.
- The top is made of solid laminate with rounded corners.
- Equipped with a removable shelf at the bottom.
- Ventilation openings at the bottom and top.
- 4 design castors Ø 65 mm.
